CONFLICT MINERALS POLICY

SSI Sintered Specialties, LLC (“SSI”) is committed to maintaining a safe and healthy working environment for our employees and the community and complying with government regulations. As required by the Conflict Minerals provisions of HR 4173 Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, SSI is working with all of our raw material suppliers to confirm that their supply of materials does not include conflict minerals as outlined in the aforementioned bill.

While SSI is not an SEC listed company, and not directly subject to this regulation, we will work to support the needs of the supply chain with regard to this regulation.

SSI will not knowingly purchase raw material supplies that derive from conflict minerals and the supply base of SSI’s main raw materials has committed to do the same. Due to the complexity of routes by which SSI’s raw material is received, it is often impossible to obtain full traceability to an exact origin of all materials. However, SSI will take practical action to prevent minerals from the conflict region from entering our supply chain.
